

DC Voltage Power Supply Unit

# DC Voltage Power Supply Unit

The DC voltage power supply models GECC3000/1500 are designed for supplying the DC voltage and current for the testing of: high voltage circuit breakers, DC motors, Protection systems and in general any type of system requiring an high-power, ripple free DC power supply.

#### GECC3000

- Powerful output up 3.3 KW
- Lightweight: only 12kg
- Ripple free power supply
- For testing circuit breaker, DC motors and protection system

# **Technical characteristics**

Output adjustment: by two potentiometers, one for the voltage and one for the overload current.

Output power :

- GECC3000: 3,3 kW
- GECC1500 : 1,65 kW.
- Service: continuous duty.
- Output ripple: less than 1% with no load, and 2.5% at full load.
- Temperature coefficient: greater than 100 ppm/°C.
- Load stability: better than 2% between unloaded and maximum load.
- Yeld, at full power: better than 80%.

#### Measurement

Two large LED meters:

- . Voltage: 3 digit digital instrument, full scale 999 V;
- . Current: 3 digit digital instrument, full scale 99.9 A.
- . Accuracy: 1% of the measurement  $\pm$  0.1% of the selected range.

#### Connections

Output connection: by connector.

Mains connection: by a two meter cable connected to theinstrument via a plug.

#### Power supply

• GECC3000: mains voltage supply: 230V +/- 15%, 50 - 60 Hz, single phase.

+ GECC1500 mains voltage supply: 230V +/- 15%, 50 - 60 Hz, single phase. (\*)

Maximum supply current: 20 A.

(\*) For the 120V version please ask to your local distributor

#### GECC1500

- Powerful output up 1.65 KW
- · Lightweight: only 10kg
- · Ripple free power supply
- For testing circuit breaker, DC motors and protection system

#### Case

Metallic case with handles.

#### Weight and dimensions

Weight:

- GECC3000:12kg
- GECC1500:10 kg

Dimensions:

- GECC3000: 400 (l) x 180 (h) x 410 (d) mm
- GECC1500 : 265 (l); 165 (h); 340 (d) mm

#### Protections

Fuse on mains supply. Filter on mains supply. Soft-start electronic circuit. Protection for start under load, with internal logic to stabilize the sequence depending upon the capacitor charge. Electronic protection for the output in a short circuit condition. Protection for maximum current, adjustable by potentiometer. Indication light in case of overload. Thermal protection. Indication light in case of over-temperature.

#### Accessories supplied with the unit

Power supply cable. Output connectors. Operating manuals.

## **Applicable standards**

#### Electromagnetic compatibility

Directive no. 89/336/CEE dated May 3, 1989, modified by the directive 92/31/CEE dated May 5, 1992. Applicables Standards: EN 50081-2; EN 50082-2; EN 55011;EN 61000-3-3; EN 50082-2; ENV 50140; ENV 50141; ENV 50204; IEC 1000-4-2; IEC1000-4-4; IEC 1000-4-6; IEC 1000-4-8.

#### Low voltage directive

Directive n. 73/23/CEE, modified by the directive 93/68/CEE. Applicable standards, for a class I instrument, pollution degree 2, installation category II: CEI EN 61010-1. In particular:

- . Operating temperature: 0 45°C; storage: -25°C to 70°C.
- . Relative humidity: 10 80% without condensing.

### Ordering information:

CODE	MODULE	
43087	GECC3000 250V - 3000W	
43086	GECC1500 250V - 1500W	
44087	GECC1500 120V - 1500W	

# GECC3000/1500 Specification

### Voltage outputs

Two range adjustable

	GECC3000	GECC1500
RANGE	VOLTAGE V	
1	0125 V	0125 V
2	0250 V	0250V
Power	3300 W	1650 W

### Current limit control

Two range adjustable

	GECC3000	GECC1500
RANGE	CURRENT A	
1	0 27 A	0 13,5 A
2	0 13,5 A	0 6,5 A
